5. KEY FINDINGS & STRATEGIC RECOMMENDATIONS

KEY FINDINGS	STRATEGIC RECOMMENDATIONS
1. Portfolio shows balanced distribution: Premium (49.1%) and Luxury (50.9%) properties.	1. Focus on 3-5 BHK properties in high walkability areas for maximum returns.
2. Average 5-Year ROI is ~45% with consistent performance across all property types.	2. Consider Premium category for value-oriented investments with comparable ROI.
3. Market liquidity is healthy: 58.4% available, 25.5% sold, 16.1% rented.	3. Prioritize gated communities in tier-1 cities for security-conscious buyers.
4. High walkability (9-10) areas generate better rental yields (~4.04%).	4. Target properties with 5+ amenities for higher rental income potential.
5. Newer properties (0-5 years) command premium pricing but older ones offer value.	5. Mumbai is ideal for rental income strategy - highest yields observed.
6. Gated communities command ~₹9 Lakh premium with comparable ROI.	6. Monitor Days on Market metrics to optimize pricing strategies.
7. Mumbai leads in rental yields, followed by Hyderabad and Delhi.	7. East and North-facing properties have traditional market preference.
8. 3-5 BHK properties dominate market demand (family-oriented).	8. Diversify across property types to balance risk and returns.
